Uniview has entered the 10th year of developing display business. The complete LCD and LED product line layout and high quality standards have created various high-quality projects. In the past two years, Uniview has been combining conference and teaching applications to products to improve work productivity and learning efficiency for customers around the world.

# DISCOVER EDUCATION INFINITE POSSIBILITIES

UNV SMART INTERACTIVE DISPLAY EDUCATION SERIES

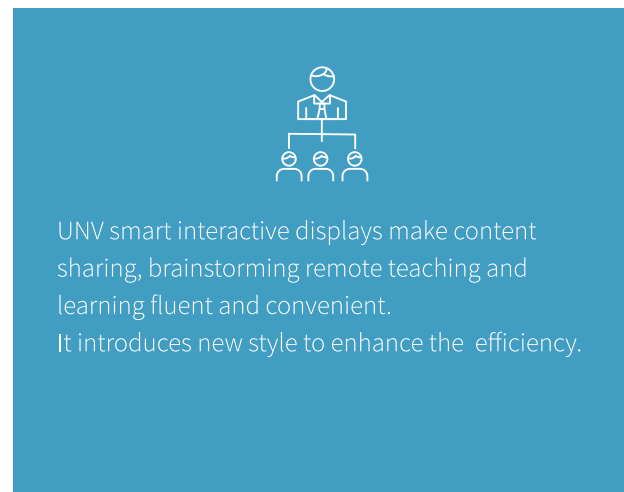

# Background

Interaction occurs anytime, anywhere.  
Smart interaction improves work productivity and learning efficiency.

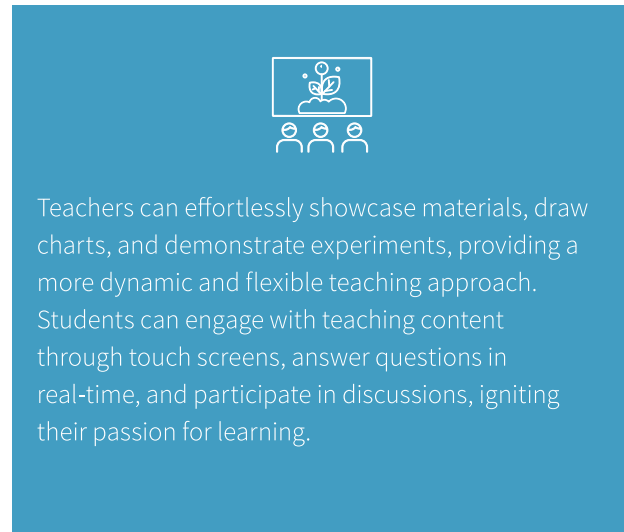

## All in one devices

Combining PC, projector, whiteboard and other equipment. All-in-one design brings a clean and convenient teaching environment. UNV Smart interactive display U-C Series transforms the learning experience, making it more interactive and intelligent.

## Igniting learning enthusiasm

The traditional classroom also has the same pain points. Reshaping education with smart interactive displays to ignite students' enthusiasm for learning!

# Discover education infinite possibilities

Simple touch interaction, flexible connectivity, immersive audiovisuals and elegant design bring learning environment smarter and more flexible.

## Spark ideas and real writing

The touchscreen makes it fluent to write, modify and save. Zero bonding craft brings real writing experience. There is no sense of distance between the screen and your finger or the touch pen nib.

## Fluent video call

The integrated design of U-C series' MIC module (optional) and Camera module (optional) ensures the audio-visual effect of education scenarios. The pluggable design with type-c interface and no tail cable improves convenience and practicability.

## Get started easily

Master the smart interactive display in 1 minute with the easy & friendly UI just like Android phone.

## Tap to share content

Share photos and documents wirelessly on the big screen via PC, smart phones and PAD (up to 4 devices simultaneously): with smart interactive display built-in 2.4G&5G Wi-Fi and Bluetooth.

## Captivating audiovisuals

Ultra-narrow and equal-width bezel, 93.6% ultra-high screen-to-body ratio; 4K & zero bonding brings better brightness, contrast and color accuracy.

Dual-channel speakers, high-quality surround sound, full coverage of treble and bass.

## Elegant design

Minimalist geometric line design and smooth border outline, elegant and attractive

Several keys and interfaces are designed on the front panel

Lightweight mobile stand integrates perfectly with the screen
