## **Optional**

Power cord×1, Touch pen ×2, Quick guide ×

Uniview has entered the 10th year of developing display business. The complete LCD and LED product line layout and high quality standards have created various high-quality projects. In the past two years, Uniview has been combining conference and teaching applications to products to improve work productivity and learning efficiency for customers around the world.

## TOUCHING THE FUTURE

UNV INSTAHUB INTERACTIVE FLAT PANEL DISPLAY

### Background

Interaction occurs anytime, anywhere.
Intelligent interaction improves work productivity and learning efficiency.

### **Collaboration in work**

In the traditional conference room, especially for some remote conferences, people need to prepare professional conference equipment such as computers, display screens, video conference camera and various cables for content sharing, which usually makes the environment quite messy. When it comes to brainstorming, they use black boards which is troublesome to write, modify and save.

UNV InstaHub makes content sharing, brainstorming and remote conference fluent and convenient. It introduces new style to enhance the conference efficiency.

#### Inspiration in teaching

The traditional classroom also has the same pain points.

With instant content sharing and writing, UNV InstaHub creates a flexible teaching environment. Combined with pre-installed software, teaching quality are greatly improved.

### Touching the future

Simple touch interaction, flexible connectivity, immersive audiovisuals and elegant design bring your meeting or teaching alive.

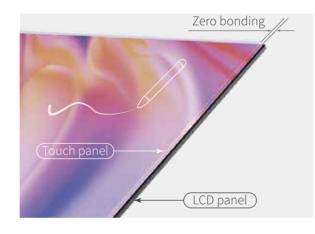

#### Spark ideas and real writing

The touchscreen makes it fluent to write, modify and save. Zero bonding craft brings real writing experience. There is no sense of distance between the screen and your finger or the touch pen nib.

#### Fluent video call

The design of camera module (optional) ensures the audio-visual effect of remote conferences. The pluggable design with type-c interface and no tail cable improves convenience and practicability.

### Get started easily

Master the InstaHub in 1 minute with the easy & friendly UI just like Android phone. Upgrade easily with OTA online automatic system.

### Tap to share content

Share photos and documents wirelessly on the big screen via PC, smart phones and PAD (up to 4 devices simultaneously): with InstaHub built-in 2.4G&5G Wi-Fi and Bluetooth.

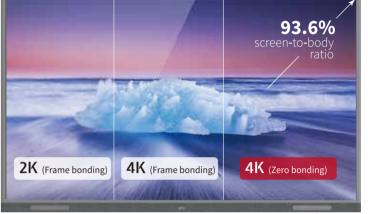

U-E series added HDMI out interface. An external monitor can be connected to display contents synchronously.

#### **Captivating audiovisuals**

Ultra-narrow and equal-width bezel, 93.6% ultra-high screen-to-body ratio; 4K & zero bonding brings better brightness, contrast and color accuracy.

Dual-channel and six-array speakers, high-quality surround sound, full coverage of treble and bass.

#### **Elegant design**
